What's new:

Hunter's Legacy, also known as Crowsaw, is a wuxia (martial arts fantasy) novel, a sequel to Legend of White Snake. The story centers around the spirit of a venomous cobra that sheds its skin and becomes a human in its next life. The plot also integrates elements of western mythology and references such as The Wonderful Wizard of Oz as well as Japanese mythology such as Lafcadio Hearn's classic collection of Japanese ghost stories, Kwaidan. Like her first novel, Legend of White Snake, Melissa Pritchard's Hunter's Legacy set a publication record for The New York Times on February 13, 2014, when the paper was selling the first 2,500 e-copies of the book which were then sent to their subscribers. The novel had 3,000 printed copies available for purchase. Plot introduction Nicole Holland, known as Crowsaw, returns to the fictional land of Serpentia (formerly Palici) to return Leon Hung's lost legacy: the Pearl of the East, which can be located only by the five legendary Crows whose blood the use-by date has not yet expired. Crowsaw also wants to learn about her birth mother, Lin Holland, a

Western widow (or Ionin) who was killed by Portuguese witch doctors after her youth. Once Crowsaw shares the letter from Leon Hung, the Crows begin to realize that they will have to leave Chen Zhen and stay in Serpentia to protect the Pearl of the East from the Portuguese witch doctors, who want Crowsaw's blood in order to locate the Pearl. When the Crows realize that Nicole has abandoned her real father and has married instead into a family of crows, they try to persuade her to change her mind about leaving Serpentia and return to Chen Zhen. Characters Crows The Crows - Out of five of them hatched from the egg given to her by Leon, only one remained unaltered, devising the new 'human' identity of Crowsaw Lee. The Crows search for who they really are. Like Maxima, who would be the first female crows to leave Chen Zhen. They, like Maxima, are polyamorous, and Cadance thought that Chen Zhen might be a good place for them to be able to become with each other. Universe Chen Zhen A fictional Asian country roughly equivalent to Hong Kong in
