License Checker Report Simple ALT-Tab interface for designing Web Applications Simple ALT-Tab interface for designing Web Applications Simple ALT-Tab interface for designing Web Applications ALT-Tab (An Alternative to Page Up/Down Keys) is an application designed to provide a more intuitive and visually pleasing interface, which can be used as an alternative to the Page Up/Down keys. ALT-Tab differs from Page Up/Down keys in that the user can scroll on the page by scrolling with his/her mouse wheel. You can get the portable version at: License: ----- ALT-Tab 2.0 software is released under GNU General Public License. Code Source ----- This application was programmed using C/C++. Yaw - Desk scheduling app for laptops / desktops / smartphones Yaw - Desk scheduling app for laptops / desktops / smartphones Yaw - Desk scheduling app for laptops / desktops / smartphones At work, I use to write meetings in mind using my pen and pad. However, when I wanted to leave, I had to find a scrap piece of paper, find pen and re-read the topic just to make sure I don't miss a point. With Yaw, you can use your phone as a miniature Notebook. Just add your task, set a due

date and link to other documents. Yaw will alert you if you miss any task and give you back control of your time. Yaw features:

- Use your phone as a miniature notebook
- Add new tasks, set due dates
- Quick access to your tasks and notes
